Languages spoken: English (fluent), Hindi (native), Tamil (conversational)

I am a freelance software engineer with an interest in web development. I have a passion for opensource software, and enjoy making things that improve the lives of people or spread happiness in the world.

#### Education

- Currently pursuing a B.Tech degree in electrical and electronics engineering from VIT University, Chennai (2020-24)
- Graduated from Army Public School, Chennai in 2020 with 91% marks.

#### **Skills**

- Proficient in Python, TypeScript, JavaScript, HTML5, and CSS
- Working knowledge of Java, C, and Svelte
- Working knowledge of git for version control
- Proficient with setting up, using, and troubleshooting Linux systems
- Comfortable with bash scripting and the command line.
- Knowledge of network utilities such as **ssh**, **nmap**, **netcat**, etc.

### **Hobbies**

- Reading (fiction, mostly)
- A little writing here and there
- Listening to music
- Playing Dungeons and Dragons
- Filmmaking
- Programming (I am currently learning Rust and Svelte)

#### Work Experience

- Girl Up VIT Chennai, Technology Secretary (2021-present)
- Socrates Club, VITC, Technology Secretary (2021-present)
- Web development, freelance (2019-present)
  - Portfolio
- Girl Up VIT Chennai, Technology committee, Member, 2020-21 academic year
  - Built a definition generator using HTML5 canvas for a glossary of feminist terms

- Socrates Club VIT Chennai's Design committee, Member, 2020-21 academic year
  - Designed and built the club's Web site
- Java development, hobbyist (2018-19)
  - CouncilElection An election suite I built for my school's student council election.
